

Did you know
this is an

INVASIVE SPECIES?

The impacts and control of invasive species are estimated to cost the United States \$120 billion per year.

Learn what YOU can do to identify and manage weeds and pests on your property and in Laramie County.

Learn About:

- Noxious, invasive and nuisance weeds
- Insect pests including grasshoppers and pine beetles
- Potential new weed, insect and disease threats to Wyoming's natural resources
- How to report noxious weeds and pests infestations
- Aquatic invasive species

Bring Your Boat! Game and Fish personnel will be on site to provide quagga and zebra mussel boat inspections.
