MAINTENANCE SHEET

PLAN CHANGE NO. ROD-1

PLAN NAME: Green River RMP

AREA: Rock Springs Field Office

Page No.: ROD-3

Column: n/a

Paragraph No.: 8

Line No.: item no. 3

Section/Heading: Wild Horse Management

**CHANGE**

*(Describe exactly what is to be deleted, added, rewritten, etc.)*

**Delete:** In the first sentence delete the words "not" and "proposed".

**Insert:** In the second sentence, replace WHHMA with WHA

**REASON**

*(Describe exact rationale for above change to include reference material, e.g., EA, EIS, IM, etc.)*

The terminology used to describe the management decision for establishing the Little Colorado Desert WHHMA was confused. Specifically, the term wild horse herd area (WHA) or "herd area" (HA) was confused with the term wild horse herd management area (WHHMA). A herd area is the geographic area identified as having been used by a herd as its habitat in 1971. A wild horse herd management area (WHHMA) is all or part of a herd area identified in management framework plans or resource management plans for the long-term management of a specific wild horse or burro herd. Wild horses were identified in the Little Colorado Desert area after the passage of the Wild Horse and Burro Act of 1971 and the area was identified as a wild horse herd area (WHA or HA). The Green River RMP establishes the Little Colorado Desert Wild Horse Herd Management Area to provide for long-term management of wild horses in the area.

## PLAN CHANGE NO. Map A-1

**PLAN NAME:** Green River RMP/Record of Decision

**PLANNING AREA:** Rock Springs Field Office (formerly Green River Resource Area)

### LOCATION OF CHANGE IN PUBLISHED RMP

**Map:** A      **Column:** n/a      **Paragraph:** n/a      **Line:** n/a

**Heading(s) where change will occur:** Map A: Land Status, ACECs, and Other Management Areas.

### CHANGE

(Describe exactly what is to be deleted, added, rewritten, etc.)

**Delete:**

**Insert:** Add new plant locations to Map A.

### REASON FOR CHANGE

(Describe exact rationale for change. Include reference material.)

Additional plant species locations for the Sensitive Species comprising this ACEC have been found on BLM-administered land by botanists at the Wyoming Natural Diversity Database (WYNDD) through funding provided by the BLM. The expansion of this ACEC in this manner was provided for in this section on the Special Status Plant Species ACEC and the management actions for these additional species locations are identical to those original plant locations already comprising this ACEC. To stay consistent with the management of these species and to lessen confusion, the number of sites, their location and total acreage will be changed to reflect the new data. This will be updated also in the accompanying heading and text on page 34, Table 2, and Map 7.

**MAINTENANCE SHEET**

**PLAN CHANGE NO. 4-1**

<b>PLAN NAME:</b> Green River RMP/Record of Decision	<b>AREA:</b> Rock Springs Field Office (formerly Green River Resource Area)
<b>Page: 4</b> <b>Column: 2</b> <b>Paragraph: 4</b> <b>Line: 8</b>	
<b>Section/Heading:</b> Cultural, natural History, and Paleontological Resource Management Historic Trails	
<b>CHANGE</b> <i>(Describe exactly what is to be deleted, added, rewritten, etc.)</i>	
<b>Delete:</b>	nothing.
<b>Insert:</b>	New sentence: Crossings may include additional disturbance of trail ruts in the areas where previous disturbances have occurred but the ruts themselves have not been disturbed. Development actions will be analyzed on a case-by-case basis through site specific analysis to identify mitigation needs and meet management objectives
<b>REASON</b> <i>(Describe exact rationale for above change to include reference material, i.e., EA, EIS, IM, etc.)</i>	
<p>Small segments of intact trail (not to exceed an area 500 feet long in total for this maintenance action) may be crossed where the setting of the area has been compromised by development provided there are no viable alternatives to cross completely within at an existing disturbance, or to bore under the contributing qualities. Should there be a direct impact to these contributing trail segments the project proponent will be responsible for adequate mitigation.</p>

# MAINTENANCE ACTION

## PLAN CHANGE NO. 16-2

**PLAN NAME:** Green River RMP Record of Decision

**PLANNING AREA:** Rock Springs Field Office (formerly Green River Resource Area)

### LOCATION OF CHANGE IN PUBLISHED RMP

**Page:** 16      **Column:** 2      **Paragraph:** 2      **Line:** at end of update 16-1

**Heading(s) where change will occur:** Recreation Resource Management

### CHANGE

(Describe exactly what is to be deleted, added, rewritten, etc.)

**Delete:** End of the last sentence: " wild horse viewing area."

**Insert:** (The Wild Horse Loop Tour on White Mountain will be) managed as the Wild Horse Scenic Loop Byway (see Environmental Assessment, WY-040-03-054). The Scenic Loop Byway on White Mountain offers the public a unique opportunity to view wild horses while also offering views of other sights having social, geologic, or historical importance. In order to clarify the management of the Byway, the intent is to provide an opportunity to view wild horses while recognizing valid existing and future rights for surface and sub-surface use. See other resource management prescriptions in this document for other prescriptions and guidance that may apply to wild horse management activities.

### REASON FOR CHANGE

(Describe exact rationale for change. Include reference material.)

The development of the Wild Horse Scenic Loop Byway (Wild Horse Loop Tour) on White Mountain is a partnership with Sweetwater County, the City of Green River, the Rock Springs Chamber of Commerce, and the BLM. This valuable partnership resulted in development of the Byway as a mechanism to enhance the local economy and inform and educate the public about BLM's role in managing wild horses and other important resources. The Loop Tour has been and will continue to be managed under the Bureau's multiple-use mandate. In adhering to the multiple-use mandate as well as keeping within the designated acreage reflected in Tables 2 and 7, the Wild Horse Scenic Loop will be managed as a Scenic Byway.

MAINTENANCE SHEET

PLAN CHANGE NO. 23-2

PLAN NAME: Green River RMP

AREA: Rock Springs Field Office

Page No.: 23

Column: 1

Paragraph No.: 6

Line No.: 1

Section/Heading: Wild Horse Management

**CHANGE**

*(Describe exactly what is to be deleted, added, rewritten, etc.)*

Delete:

Insert: The Little Colorado Desert Wild Horse Herd Management Area is hereby established

**REASON**

*(Describe exact rationale for above change to include reference material, e.g., EA, EIS, IM, etc.)*

The Proposed Plan in the FEIS for the RMP correctly identifies the Little Colorado Desert as a proposed new Wild Horse Herd Management area. As noted in the ROD for the RMP page ROD-5, last paragraph, "As a result of protests on parts of the proposed RMP, some clarification has been included in the Green River RMP; however, no changes were made to the proposed decisions identified in the proposed RMP." The establishment of this Wild Horse Herd Management area, as presented in the FEIS for the RMP, although clearly intended, was not clearly stated in the approved RMP and therefore this maintenance action is necessary.

<b>CHANGE</b> <i>(Describe exactly what is to be deleted, added, rewritten, etc.)</i>			
<b>Delete:</b>			
<b>Insert:</b> (including monetary value and functional resource values)			
<b>REASON</b> <i>(Describe exact rationale for above change to include reference material, i.e., EA, EIS, IM, etc.)</i>			
Insert the bracketed portion after "...for lands of equal or better value". This will clarify the intent of the decision. Since not all riparian/wetland areas have the same resource functionality based on the extent and timing of surface water, types of riparian/wetland plants, and geographic location, the values of this functionality should be analyzed in any exchange proposal along with the standard land value appraisals.

PLAN NAME: Green River RMP

AREA: Rock Springs Field Office

Page No.: 28

Column: 2

Paragraph No.: 7

Line No.: End

Section/Heading: Greater Red Creek ACEC, Actions Unique to the Red Creek Watershed

**CHANGE**

*(Describe exactly what is to be deleted, added, rewritten, etc.)*

**Delete:** Nothing

**Insert:** Activities such as the installation of structures designed to reduce sediment, siltation, or erosion; and the rerouting or maintenance of roads (including the installation of culverts and similar structures), could be accomplished to meet the area objectives and provide needed or improved access.

**REASON**

*(Describe exact rationale for above change to include reference material, e.g., EA, EIS, IM, etc.)*

To achieve the objectives for this area, some maintenance and construction of facilities to enhance the watershed are necessary. The objectives and actions for this area provide for the types of activity described in the maintenance language, however clarification and further explanation of this intent are needed.

PLAN CHANGE NO. 28-2

<b>PLAN NAME:</b> Green River RMP/Record of Decision		<b>AREA:</b> Rock Springs Field Office (formerly Green River Resource Area)	
<b>Page:</b> 28	<b>Column:</b> 2	<b>Paragraph:</b> 5	<b>Line:</b> last
<b>Section/Heading:</b> Actions Unique to the Red Creek Watershed			
<b>CHANGE</b> <i>(Describe exactly what is to be deleted, added, rewritten, etc.)</i>			
<b>Delete:</b>	Nothing		
<b>Insert:</b>	An evaluation may occur sooner than 10 years if there is evidence of vegetation recovery on the majority of the concentration area, and disturbed soils appear to have stabilized.		
<b>REASON</b> <i>(Describe exact rationale for above change to include reference material, i.e., EA, EIS, IM, etc.).</i>			
<p>The intent of providing 10 years of rest for the concentration area is to allow for soil stabilization and vegetation recovery on the disturbed pipeline concentration area. An estimate of 10 years was identified to reach this goal. Opportunity to evaluate the area sooner is possible with adequate vegetation response and the lack of new disturbance and/or use of the area. After 9 years it has been determined that these conditions exist and performing an evaluation before the tenth year is timely. Thus the direction in the RMP is met.</p> <p>The concentration area has been the historic route for rights-of way from eastern Utah to southwest Wyoming, through the Red Creek Watershed. Due to geographic and resource constraints, the area has limited potential for future rights-of-way. Currently, there is a need for routes to transport natural gas in this part of southwest Wyoming. In considering these needs and the improved management of the watershed, the concentration area will be evaluated at the ninth year of recovery instead of the tenth year.</p>

## PLAN CHANGE NO. 34-1

**PLAN NAME:** Green River RMP/Record of Decision

**PLANNING AREA:** Rock Springs Field Office (formerly Green River Resource Area)

### LOCATION OF CHANGE IN PUBLISHED RMP

**Page:** 34

**Column:** 1

**Paragraph:** 4

**Line:** 1

**Heading(s) where change will occur:** Special Status (Candidate) Plant Species ACEC (900 acres of BLM-administered public lands)

### CHANGE

(Describe exactly what is to be deleted, added, rewritten, etc.)

**Delete:** 900 acres

**Insert:** 1,200 acres

### REASON FOR CHANGE

(Describe exact rationale for change. Include reference material.)

Additional plant species locations for the Sensitive Species comprising this ACEC have been found on BLM-administered land by botanists at the Wyoming Natural Diversity Database (WYNDD) through funding provided by the BLM. The expansion of this ACEC in this manner was provided for in this section on the Special Status Plant Species ACEC and the management actions for these additional species locations are identical to those original plant locations already comprising this ACEC. To stay consistent with the management of these species and to lessen confusion, the number of sites, their location and total acreage will be changed to reflect the new data. This will be updated also in the accompanying text, Table 2, Map A, and Map 7.

Lower Bush Creek Coal Bed Methane Exploratory Pilot Project EA. Rock Springs Field Office, Rock Springs, Wyoming.</p>			
<p><b>REASON</b> (Describe exact rationale for above change to include reference material, i.e., EA, EIS, IM, etc.).</p> <p>The Lower Bush Creek Coal Bed Methane Exploratory Pilot Project EA updates the assumptions for analysis for the Final Environmental Impact Statement (1996) for the Green River Resource Management Plan. The analysis contained in this EA provides an evaluation of impacts associated with an increased level or cumulative development in the Red Desert Watershed Area (RDWA). Specifically, the analysis in the EA provides a disclosure of the impacts of 20 exploratory wells and related facilities within the RDWA. At the time the Final EIS for the Green River RMP (1996) was being prepared, it was assumed that 10 new producing wells would be drilled in the RDWA. The analysis in this EA updates this assumption to 20 new producing wells. The impacts of the proposed level of development do not result in a change to the existing RMP decisions or the addition of a new decision to the GRRMP. A copy of this document is available for review in the Rock Springs Field Office.</p>

MAINTENANCE SHEET

PLAN CHANGE NO. Map 27-1

PLAN NAME: Green River RMP		AREA: Rock Springs Field Office	
Map No.: 27	Column: n/a	Paragraph No.: n/a	Line No.: n/a
Section/Heading: Wild Horse Herd Management Areas			
<b>CHANGE</b> <i>(Describe exactly what is to be deleted, added, rewritten, etc.)</i>			
Delete: (Established 1971)			
Insert:			
<b>REASON</b> <i>(Describe exact rationale for above change to include reference material, e.g., EA, EIS, IM, etc.)</i>			
<p>Map 27 correctly shows the Wild Horse Herd Management Areas that have been established in the Rock Springs Field Office administrative area. The parenthetical phrase (Established 1971) is in error because it refers to "wild horse herd areas" (HAs) where wild horses existed in 1971. This phrase does not pertain to the date the "wild horse herd management areas" (WHHMA) were established and does not reflect the information on the map. Four of these wild horse herd management areas were established prior to preparation of the Green River RMP. The fifth area, the Little Colorado Desert Wild Horse Herd Management Area, was established with the Record of Decision for the Green River RMP. The Proposed plan in the FEIS for the RMP displayed the Wild Horse Herd Management Areas correctly (Map 28 FEIS). An error occurred in preparing the map for the ROD with the terms wild horse herd area (HA) and wild horse herd management area (WHHMA). This maintenance action, removing the parenthetical phrase (Established 1971) will correct the information on the map.</p>

## PLAN CHANGE NO. 171-3

**PLAN NAME:** Green River RMP Record of Decision

**PLANNING AREA:** Rock Springs Field Office (formerly Green River Resource Area)

### LOCATION OF CHANGE IN PUBLISHED RMP

**Page:** 171      **Column:** 1      **Paragraph:**      **Line:**

**Heading(s) where change will occur:** Appendix 8-1; "Lands Identified as Possibly Suitable for Disposal"

### CHANGE

(Describe exactly what is to be deleted, added, rewritten, etc.)

**Delete:** N/A

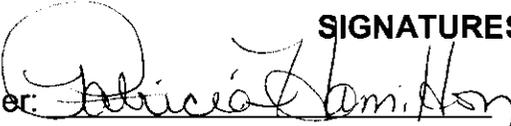

**Insert:** New line under "Sale/Exchange- Lands Difficult to Manage":  
40.00 acres; T. 29 N., R. 10 6W.; Section 34; SW1/4SE1/4

### REASON FOR CHANGE

(Describe exact rationale for change. Include reference material.)

Disposal of public land through the sale process to resolve long-standing trespasses is acceptable by the RMP (pg. 9). The described lands were patented, effective November 29, 2007, to resolve unauthorized occupancy trespass.

## PLAN CHANGE NO. 172-3

**PLAN NAME:** Green River RMP Record of Decision

**PLANNING AREA:** Rock Springs Field Office (formerly Green River Resource Area)

### LOCATION OF CHANGE IN PUBLISHED RMP

**Page:** 172      **Column:** 1      **Paragraph:**      **Line:**

**Heading(s) where change will occur:** Appendix 8-1; Recreation and Public Purposes Lands

### CHANGE

(Describe exactly what is to be deleted, added, rewritten, etc.)

**Delete:** (Under heading "Recreation and Public Purposes Lands):  
134.83 acres; T. 19 N., R. 105 W.; Section 28; Lots 3, 4, 5, 23

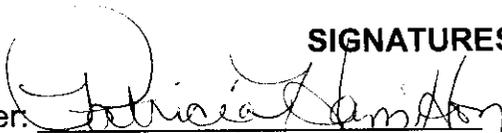

**Insert:** 134.85 acres, T. 19 N., R. 105 W.; Section 28; Lots 3, 4, 5, 32-35

### REASON FOR CHANGE

(Describe exact rationale for change. Include reference material.)

The RMP shows Lot 23. This is incorrect. Lot 23 was resurveyed into Lots 32-35. Lots 32, 33, and 35 were leased to the City of Rock Springs for the Young At Heart Recreational Facility on September 10, 2007. Lot 34 was leased to Sweetwater County for the Youth Crisis Home on February 4, 1993.

## PLAN CHANGE NO. 172-4

**PLAN NAME:** Green River RMP Record of Decision

**PLANNING AREA:** Rock Springs Field Office (formerly Green River Resource Area)

### LOCATION OF CHANGE IN PUBLISHED RMP

**Page:** 172      **Column:** 1      **Paragraph:**      **Line:**

**Heading(s) where change will occur:** Appendix 8-1; Recreation and Public Purposes Land

### CHANGE

(Describe exactly what is to be deleted, added, rewritten, etc.)

**Delete:** 5.0 acres; T. 20 N., R. 105 W.; Section 20 SE1/4SE1/4SE1/4NE1/4

**Insert:** 5.0 acres; T. 20 N., R. 105 W.; Section 20 SW1/4SE1/4

### REASON FOR CHANGE

(Describe exact rationale for change. Include reference material.)

The described lands were leased to the Ten Mile Water and Sewer District on November 3, 2005.

# MAINTENANCE ACTION

## PLAN CHANGE NO. 173-1

**PLAN NAME:** Green River RMP Record of Decision

**PLANNING AREA:** Rock Springs Field Office (formerly Green River Resource Area)

### LOCATION OF CHANGE IN PUBLISHED RMP

**Page:** 173      **Column:** 1      **Paragraph:** 10      **Line:** 3

**Heading(s) where change will occur:** Appendix 8-2, Disposal Criteria, Sales

### CHANGE

(Describe exactly what is to be deleted, added, rewritten, etc.)

**Delete:** Nothing

**Insert:** "any or all of" as shown: "...must meet any or all of the following criteria..."

### REASON FOR CHANGE

(Describe exact rationale for change. Include reference material.)

The rationale for this change is to clarify the language in the Green River Resource Management Plan (1997) regarding disposal criteria of public lands in federal ownership. This clarification is based upon the language contained in 43 USC 1713; and the Federal Land Management and Policy Act, Section 203.
