How You Can Participate in the Resource Management Plan Revision

Throughout the revision process, there will be several opportunities for you to comment and provide your input. Public involvement is an essential part of the process. With public involvement and environmental analysis, the NEPA process will support the BLM in making informed decisions.

To the right is a diagram of the revision process and below is a description of the ways you can participate at different times in the process.

30-Day Scoping Period— The scoping period began with the publication of the Notice of Intent in the Federal Register on **June 20, 2003**. Although the BLM Resource Management Planning Regulations (43 CFR 1610.2) include a 30-day scoping period, the RMP scoping period is 5 months and will close on November 20, 2003. A series of public meetings will be held throughout the planning area to provide you with information and solicit your comments and input.

90-Day Public Comment Period— After the Draft EIS is published (Winter 2004/2005), you will have an opportunity to provide comments and input again.

30-Day Protest Period— After the Final EIS and RMP are released you have an opportunity to protest the selected management alternatives.

Newsletters — Throughout the planning process, we will be sending those of you on the mailing list schedule updates, opportunities for public input, and other relevant information.
