Comment:

1. We support Alternative " D " of the plan options.
2. Expansion of Poison Spider OHV.
3. An ADDITIONAL OHV park is necessary for future LONG term RECREATIONAL Growth. Poison Spider OHV Park use has quadrupled in recent years & an additional OHV park in the CASPER DISTRICT will be a POSITIVE Action that will REDUCE the number of serious accidents at Poison Spider OHV park DRASTICALLY due to overcrowding in such a small park such as POISON SPIDER OHV Park.
4. Identify areas where ohv use is occurring & develop plans to designate trails in those identified areas.
5. Adopt an " Open unless posted closed " signage system .
6. Adopt a description of trails to be 50 inches or less.
7. Allow user created trails as a sign for ACCESS & useage necessary in that area & district.
