Subject: Sweetwater Watershed - RMP Project Manager

RMP Project Manager;

I would like to provide my support for the protection and conservation of the Sweetwater Watershed. This is support of the Jeffrey City area (Hunting Units 67/68/74/106 Pronghorn) for its existing BLM management plan for pronghorn herds. I have hunted in this area on two occasions and find it to be a wonderful resource for the State of Wyoming. I have camped near Jeffrey City and hunted Areas 68 and 74.

The addition of large scale oil & gas exploration should be carefully planned and regulated to consider the natural resources of the Sweetwater Watershed.
