Subject: Proposed new restrictions for Oregon Trail, South Pass, Atlantic area

Project Manager RMP Project Manager,Lander

A large buffer zone (20 Mile, etc,) is unacceptable and restricts private land owner use, stock grazing use mining interests, as well as recreational use. we are property owners of one mile of the affected private land and county road (Lewiston, Wy.)

we request a more detailed description, etc. and extension of the comment date. We , as private land owners have not received any information of the proposed plan except via Casper Star Tribune Newspaper. 1/18/12.

Sincerely,
Harry R. Reed
Randall Jacobs
