

Table 12. Analysis results showing the calculated reduction in federal non-coalbed oil and gas wells and federal coalbed gas wells for Alternative 1 (No Action) due to Category C restrictions. This calculation indicates there would be a reduction of 119 non-coalbed oil and gas well locations and 71 coalbed gas well locations on federal lands.

Development Potential	Well Locations per Township	Federal Acres (thousand)	Federal Townships	Percent Reduction in Well Locations	Reduction in Well Locations
Non-Coalbed Oil and Gas					
High	2,515	1,490	0.06	30%	48.79
Moderate	330	5,020	0.22	40%	28.76
Low	65	25,790	1.12	50%	36.38
Very Low	11	18,250	0.79	55%	4.79
Coalbed Gas					
High	110	14,300	0.62	35%	23.90
Moderate	60	36,990	1.61	45%	43.35
Low	2	18,250	0.79	55%	0.87
Very Low	0.4	261,940	11.37	60%	2.73
