Section/Heading: Sand Hills/JO Ranch Area of Critical Environmental Concerns

CHANGE

(Describe exactly what is to be deleted, added, rewritten, etc.)

Please see attached map for change in the boundary of the Sand Hills/JO Ranch Area of Critical Environmental Concern. The boundary has been modified from the boundary illustrated in the 2008 Approved Rawlins Resource Management Plan (RMP) on Map 2-9c resulting in an increase of 64.4 acres. The original acreage was 11,937.6 acres. This maintenance action increases the acreage to 12,002.0 acres.

REASON

(Describe exact rationale for above change to include reference material, i.e. EA, EIS, IM, etc.)

The original boundaries in the 2008 Approved Rawlins RMP were arbitrarily depicted, and did not accurately reflect the boundary. The new boundary follows existing fence lines and legal description for easy identification of the boundaries. Allows ease of boundary identification by users and visitors.
