

Figure 13. Historical spot gas prices for Northwest Pipeline at Opal, Wyoming, with high and low projections to 2025 based on Energy Information Agency estimate of average wellhead prices for 2025 minus a \$0.50/MMBTU differential. Futures prices are shown for reference and are based on NYMEX price minus a \$0.50/MMBTU differential. Historical gas prices are in nominal dollars and are from the Oil and Gas Journal and enerfax.com website.
