

Instructions for Attachment 3, Historic Structures

The attached worksheets were reviewed and updated using prior year annual report submittals (FY 2008 to FY 2010) and the updates provided by email to Bekki Lasell in September 2010. Please review your states lists for completeness. Where there are still some discrepancies, these are noted below for each state as appropriate.

For updates to the state's list of historic structures, please highlight in yellow any changes from FY 2010.

If a structure is removed from the list, please add the structure to the "Footnotes" tab/ worksheet, give the reason for removal, and highlight the addition.

After any additions or deletions, please verify the subtotals, and update your state's summary in the "State Summary" tab/ worksheet.
